Note 1: Transcript of talk released by R Powell but has not been edited by RP

Summary: This podcast focuses on 'signs in the heavens' and how they 'speak to us,' particularly in regard to the two great American solar eclipses.

Key Topics: *The 2 American Solar Eclipses (2017 & 2024)*—Spiritual significance of the 'cross' formed by the two paths of totality over America and how this relates to Christ in His Second Coming; Spiritual significance of the 'cross' together with the letters 'A' (formed by the path of totality of the annular solar eclipse) and 'T'; The message from heaven with the first solar eclipse passing over 7 cities called Salem, and heaven's message with the second solar eclipse passing over cities called Nineveh (the Prophet Jonah and his message to Nineveh); The spiritual significance of planetary configurations at the time of both solar eclipses and their connection with Lazarus/Christian Rosenkreutz; Solar eclipses as a time of "opening" in relation to the release of spirits of darkness from subterranean depths, and also as a time of opening to the Earth Mother in Shambhala. *Comets*—Their purpose; The spiritual significance of the paths of Comet Hyukatake (1996) and Comet Hale-Bopp (1997) crossing at the star Algol (eye of the Medusa). *The Connection between Solar Eclipses and Earthquakes and between Solar Eclipses and Comets*—Example of the 1811 New Madrid Earthquake (Dec 1811) in relation to the Comet Pons-Brooks (July 1811) and the annular solar eclipse (Sep 1811); The story of Tecumseh and the Native American Indians in relation to the solar eclipse and great earthquake in 1811; The possibility of Comet Pons-Brooks being visible at the time of the second American solar eclipse. *Cosmic Signs vs Human Interventions*—Now in a battle between Good (Christ, Lord of Life) and evil (Satan, lord of death); Human interventions at the time of the second solar eclipse as 'summoning the demon' (the firing up of CERN; the NASA experiment launching 3 rockets (named after an Egyptian demon) into the path of totality of the eclipse; flying aircraft along the path of totality to possibly release Disease X).
