### **Summary: The Circle of Twelve: Atlas**

The sacrifices of Christ down through the ages. The sacrifice of Atlas in the light of Christ's second sacrifice. Atlas was working with the Archai, beholding the cosmic destiny of every person. Atlas had one daughter who could bear to witness his suffering. This witnessing of the daughter of Atlas repeats at the foot of the cross.

Christ's second sacrifice: awakening the feeling life through speech – vowel sounds. Feeling life is related to the chakras, the planets, the seven vowel sounds.

This is the time of the second fall:

- The gradual creation of the ahrimanic race through subordination to artificial intelligence – the mechanization of the spirit. The remedy: awakening to the Holy Spirit.
- The zombification or vegetabilization of the soul through the drug epidemic. The remedy: feeling Christ's infinite mercy.
- The animalization of the will – of the body...separation of our will from divine will – robotic will. The remedy: aligning our will with divine will.

The abomination of desolation. The Talmud as one of the most evil books ever written. The desire to create a third temple in the physical vs. the true third temple which is the Resurrected One.

Palm Sunday on April 8, 2024 was a day of a total solar eclipse, indicating Christ's presence in the etheric and His coming as the Prince of Peace for humanity at this time.
